DID GERMANY CONCEAL POPULATION?

(Washington Dispatch to New York

Sun.)
For the twenty years preceding the outbreak of the present war the Im-perial German government, through studied and systematic falsification of the vital statistics prepared under the direction of the national census department, had prepared the public minds of all Europe to meet the manpower in war natural to expect from a nation of 68,000,000 persons. In reality the growth of the German

Empire in population had been to a point 22,000,000 greater than this, and when the war broke over Europe in 1914 the actual population of Germany

These facts were communicated to-day to Chairman Hitchcock of the senate foreign relations committee by Dr. C. D. Usher, of Auburndale, Mass., formerly actively engaged in the study of political and commercial conditions the trans-Caucasian region and for many years a resident of Germany and other Central European countries.

Dr. Usher gave as his authority for the astounding statement of Germany's concealed man power no less a per-sonage than Field Marshal von Hindenburg. During the summer of 1913, Dr. Usher's daughters had been guests in the home of the then retired German general. They were intimate chums with the daughters of the present Field Marshal.

HOOVER HAS NOTHING ON CORNELIUS MACK

(By Jack Veiock, International News Sports Editor.) New York, June 21.—Herbert Hoover has nothing on Connie Mack. When it comes to frugality, efficiency and far-sightedness, the keen-ness of the national food administrator is acknowledged, but he might learn a few things from the long, lean boss of

the Athletics at that. Everybody interested in baseball thought that Mack had pulled a prace when he made his last big deal with the Boston Red Sox. Visions of the Athletics playing to empty seats and taking the role of the American league doormat were common.

of Mack's labors in getting a ball club together. You'll find that the A's are not the worst looking ball club that ever posed as a major league organization by a whole lot. And Mack has made money-lots of it-and has the nucleus of another winner if the war doesn't hand him another solid kick in the slats.

Connie has made a better first base-man out of George Burns, ex-Detroit player, than Burns ever was before. George is playing bangup ball for the A's, and, what's more he's hitting like a pile driver and his hits have been timely. In addition, Connie has unearthed two young infielders in Shan-non and Dugan, who remind many fans of Barry and Collins when they came out of college. Larry Gardner, Rube Oldring and Tillie Walker are good enough for jobs on most any man's club, while Outfielder Jamieson is developing fast. McAvoy and Perkins, the catchers, are delivering for Mack, while in Scott Perry, the new sensation from the Southern league; Vean Gregg, Elmer Myers and Adams, Mack has four good pitchers. How does he do it? That's Mack's secret. He simply goes out and gets em while other managers how over the scarcity of talent.

YANKEE GUNS ARE POUNDING THE HUN HORDES ON THE WESTERN BATTLEFRONT

American artillerymen have won praise from American, French and British officers for their splendid work in raining shells on the Germans in Picardy and the Champagne, as well as on the Lorraine front. Most of the heavy guns they are using are of French make, but the Yankees use them as effectively as they use their own artillery. This photograph shows American soldiers unloading field pieces at a French railway station preparatory to rushing them to the front to help stop the Hun hordes.
